Field Office: Saguache Field Office		E-MAIL:	chris_robbsins @co.blm.gov
Address: 46525 Highway 114, Saguache, CO 81149			

The Saguache Field Office (SAFO) is soliciting public comments on the following two topics: First, we would like assistance in prioritizing allotments for the assessment of public land health standards for Colorado. Secondly, we intend to renew 5 grazing permit\leases as part of a landscape health assessment during 2004 and 2005. We need to determine the level of public interest, concern, and resource conditions on each of the allotments up for assessment and renewal.

The assessment of public land health will be done on an allotment basis. During FY 2005 the Saguache Field Office will be completing land health assessment(s) in the following: Tracy Common, Tracy Canyon, West Tracy Ridge, Higgins Spring, and Rock Creek Allotments.

Once the FO receives the public comments, the staff will meet as an interdisciplinary team. Public comments and all other available information provided, will be used by the FO Inter-Disciplinary Team to complete the Land Health Assessment.

Following are the allotments and acreage identified in the FO that are soliciting input regarding when the assessment be initiated.

Name	Federal Acreage
Dry Gulch (near Crestone)	810
San Isabel	725
Cotton Creek	4,184
Mirage	2,422

The FO will also be completing the National Environmental Policy Act (NEPA) analysis and making decisions on the renewal of certain grazing permit/leases. Since the level of NEPA analysis is in part driven by the level of public interest and concern, your comments are requested relative to conditions you have observed on these allotments, and/or specific environmental concerns about the lands and/or resources found within the specific allotment. The more specific and factual your information is, the more helpful and useful it will be.

An interdisciplinary team will rank the expiring permits into high and low priority categories based on public comments and all other information available. The ranking will help determine the amount of consideration necessary and the appropriate level of NEPA documentation for reaching a decision on each grazing permit renewal. The ranking will also help to allocate resources to address concerns on a priority basis.

The following allotments will have a landscape health assessment starting in 2004 (field work) and completed in Fiscal Year 2005. The level of NEPA analysis is in part driven by the level of public interest and concern. Your comments on these allotments is being sought.

Allotment Name	Federal Acres	Permittee/Lessee	Land Area
Tracy Common	25,420	Gery J. Dirks George Whitten Jr. R. Earl Davey Davey Family Partnership Danny Temple	Saguache FO
Tracy Canyon	1,493	Glenn L. Alexander	Saguache FO
West Tracy Ridge	954	Roy Archuleta	Saguache FO
Higgins Spring	760	101 Land and Cattle	Saguache FO
Rock Creek	15,363	John Noffske	Del Norte FO

If you have any information or concerns, wish to be considered as an interested party on a permit or allotment, or wish to be involved in a health of the land assessment, please contact the individual at the address above to be put on a mailing list. If you do have not specific comments at this time but have questions about the land areas or allotments listed in this notice, contact the individual at the address above.
